Newsletter September 2014

E d i t o r i a l

Dear teachers,

Welcome back to the new school year! Welcome back to your schools, to your students, to your teaching jobs! Either you feel the excitement of being in a new school, meeting new colleagues and students, or getting back to your "old", dear school and mates, new challenges are there waiting for you, daring you to reach new goals, new professional standards, new personal achievements!

Uniscan is here as always to support you with new teaching ideas and activities, new courses, course levels and course components, and new revised materials for Cambridge 2015 which have just come out of print or which are to come out very soon.

This year we are happy we have managed to redesign our website and offer you a new eShop, www.tinkerbella.ro. Uniscan and Tinkerbella sites have become available starting September 1st, and I must tell you there is still work to do for a very good functionality, but it's a huge work behind a website and we appreciate if you start using them and give us useful feedback so as little by little with your aid we can improve them. You will find there attractive special offers, more and more products, you can download free materials, and soon you will find our teacher training and self development seminars we run under the name of Active Learning Training Center on www.activelearningcenter.ro which is still under reconstruction. I can tell you one of the next year training events is the Express Publishing Conference in May marking 12 years of Express Publishing in Romania. You can easily navigate from one site to the other as if they were separate pages of the same site as you have home links for all the sites on every page. Keep an eye on our sites as we plan to offer you many Happy Hours every week-end!

This summer the Ministry of Education has organised a bid for grade 1 and 2. Though we got the best score for quality the digital textbook was rejected for reasons we cannot understand. We have made an appeal requiring the re-evaluation of the digital learning material as we consider the rejection was a mistake. We will keep you updated with the resolution we get, and by that time we continue offering you all our catalogue titles for all school segments, including excellent materials for grades 1 and 2, both in the form of printed books and of digital books.

Our special offer enables you to experience the use of ieBooks and IWB software in class or in private lessons, and allows you to choose from getting discounts you can use to buy any kind of teaching materials you need or Express Publishing teaching components and materials you wish to use to improve the process of teaching and learning English. You can turn your discount into flashcards, story cards, Multi-ROMs, the Incredible I5 new course book that will only become available for sale in 2015, interactive e-learning, grammar books, the CLIL Readers nominated this year for the ELTon awards for innovation in learning resources, exam materials, skill books, puppets, a.s.o.

There are also very special offers for some Happy Titles as we have called them as Express Publishing gives you extra bonuses which I hope will make many happy teachers.

Enjoy going through the pages of our newsletter, enjoy the coming back to school and best of luck!

Have a successful teaching year!

Best wishes,
Simona Popa, Managing Director
Uniscan Grup Educational/ ALTCenter.

What's new? ELT materials for the new Cambridge exam format

REVISED FOR FCE 2015

Starting this autumn, we provide you with new materials for the revised edition of FCE. Have a close look at revised format of tests, but also at our new coursebooks ready for the examination.

From January 2015, Cambridge English First examination introduces new changes in organising the examination. Even if the language skills and test are at the same upper-intermediate level, the exam will be 30 minutes shorter, mostly because it will only have 4 papers instead of five. As seen in the revisions made on other levels (like revised CPE for 2014), the Reading and Use of English paper are now combined, this time lasting for 1 hour and 15 minutes.

Express Publishing comes at hand with updated coursebooks for this school year, providing full year materials to help your students practise the new format. There are available (or coming soon) revised editions for most of the titles in intermediate and upper-intermediate levels, among which Upstream, On Screen, Wishes, a.s.o.

And most important, you can immediately adopt the updated tests for FCE in the Exam Papers/ Listening & Speaking Skills format.

New Course Levels with Interactive ieBooks and IWB Software IWB – A Win-Win Situation

The IWB Softwares provided by Express Publishing for the past years have an endless list of advantages. Whether you are keen on technology or not, the profitability of any software is tangible.

When we promote the Interactive Whiteboard Software we think of the teacher-student relationship as a win-win situation. By far, the motivation and enjoyment of students together with the increased participation and collaboration are among the immediate outcomes of digitalising your lessons. Teachers find better ways to accommodate to various learning styles, while students are increasing their self-confidence and ability to cope with complex concepts.

An IWB Software is able to improve social skills by creating various contexts for both students and teachers to ask more questions, and also cognitive skills, as students have to remember, understand, apply, evaluate, a.s.o.

In short, what can an IWB software do? These are some examples:

- It allows teachers and students to participate interactively in activities projected onto the board from a data projector which is connected to a computer.
- The main menu list of the software is very well organized, with the modules, vocabulary and grammar, self-assessments, videos and games separated into different sections for quick reference.
- It can eliminate the need for additional equipment like a DVD player, CD player, etc. Because you have videos, listening exercises, documentaries, songs, a.s.o. on the same CD;
- It has a friendly toolbar, which is the same for all Interactive Software and is easy to master and create new exercises according to one's needs.

- Fun quizzes
- Speaking and writing model help students correctly prepare homework
- Practice and revision of the new vocabulary with definitions, examples and visuals
- Sections to introduce cross-cultural information

All our new courses are accompanied by ieBooks and IWB software that will help you increase learner's attention span, engage and motivate learners through blending textbooks and digital technology. They will definitely change the flow of your lesson!

- Read-along dialogues and texts to help pupils improve their reading skills
- Audio-visual practice and revision of new vocabulary
- Animated grammar revision and practice
- Portfolio activities with model projects
- Karaoke songs
- Authentic videos to familiarise students with different aspects of English culture
- Fully animated songs and games
- Fully-animated readers and fun stories
- A digital audio-visual dictionary / vocabulary lists with audio in every lesson
- A thematic vocabulary bank to practice and revise vocabulary through interactive activities
- Fun vocabulary and grammar games
- Interactive activities to practice and consolidate the new language in a enjoyable way
