## The Teacher as the Magician & the Magic Power of Education

Dear teachers,

*I*t's been almost 2 years since fear brought us all living our lives in a more and more virtual dimension. Not long ago we were complaining that our kids were spending too much of their time playing too many video games, watching too much TV, tumbling down through computer windows or telephone tabs into a world of fantasy. And here we are, today, on the other side of the screen, tempting our students into a world of illusion where we think we can be safe... But are we?! Is isolation not a double blade solution?

*I remembered a TPR activity I was doing with you a few years ago in which we were holding hands, swinging arms and singing:*

*My hand.*

*Your hand.*

*We grow together.*

*You and me,*

*We play together...*

*Moving from the touch of the skin to the touch of the screen makes me feel sad. When we were complaining of our kids being absorbed inside a tiny case we were out of the box and could throw them a safety rope they could use to get back into the real world. But once we jump together into a mirrored world, we may find it difficult not to get all lost.*

*I remember the magic we feel in front of an Illusionist. I think any of us is so enchanted to see white rabbits coming out of a simple hat, human bodies cut into pieces that stick back together, cards coming out from behind our own ears. What can be more attractive than diving into the Magician's land? But is there a Magician's land? Or is there a trap into a nowhere land? How is that we have come to stick ourselves on a wheelless chair simulating life experience? How is it that the screen has become the gate to a world inside a mirror, a world within sight? Don't we wander forth to a computer-generated environment with the appearance of reality in which we fool ourselves that we are immersed?*

*Surviving is not always easy. Fear and sufferance may take us on the bottom of the illusionist's hat where we have the illusion of being protected and on the safe side. We come to fear human contact, to believe isolation and distancing is a must to stay safe, to hide our faces, our emotions, our smile, suppressing words that come as from behind a wall, losing their audibility. More sufferance infiltrates within our selves that push us to unsuspected realms, to non-existent spaces where we hide in fear, miming the remembrance of lough and joy.*

*Teachers have always been the wise people shaping life, the true magicians revealing the*

*beauty of the real world, and I think it is our duty to guard and preserve Reality, to preserve the most precious attributes of humanity. We have to adjust our teaching methods and instruments so as to expose our students to education, but we have to remain their compasses and keep the balance up, so as our kids do not get lost in a virtual world.*

*We offer you wonderful tools to teach online, some of the kids and some of you may become more enthusiastic about working on our platform with the digibooks than in the class with the printed books, but it's good to pay attention to the emotional vibes and watch out the side effects of going too much into the online teaching, learning and living. The online interaction may reveal itself as a handy refuge under the circumstances of a world health crisis, but many kids and teens have become depressed, extremely sad, lost connection with friends and feel puzzled and confused and dare not get out of their new protective but alienating shell, sometimes out of the adult's reach.*

*So, let's keep the printed books on the desks as footprints towards Reality and carefully manage student's imagination and the use of technology! Digital learning was meant to reach the students, stir their curiosity and creativity, motivate and engage them into learning. It was not meant to be turned into the only way to communicate and relate to each other. So, we count on you, dear teachers, to take care of both your students' education and their emotional health by hopping on and off virtual reality. Mix English learning activities with self-development activities, that is, blend education and psychology as we badly need to make an appeal to the healing power of education.*

*Good luck in this new, still very challenging, school year, use the digital learning we provide with wisdom and care and let's find together what is there left to innovate in teaching & learning!*

*We are looking forward to meeting you within our new psychoeducational training programs about how to sustain and validate the potential of our students, their trust and confidence, how to make well-being the final destination in the realm of education.*

*You and us, we grow together!*

2021-2022

## Fairyland 3 & 4 Re-approved to Be Used in Schools!

We are happy to let you know that the new edition of Fairyland 3 and 4 has been reapproved by The Ministry of Education and you can continue using them with your students. The Fairyland series can be used from level 1 to level 4 and if you want it goes further to level 5 and 6. Levels 2, 3 and 4 are on the Ministry list of approved books while Fairyland 1 is on the Ministry list of approved auxiliary materials. Also, the workbooks and grammar books for all levels are approved as auxiliary materials for classroom use. Thus, you can safely continue the adventure to Fairyland with your students!

As you have already placed your order for Fairyland 3 within the Ministry platform, we have already delivered the books to the warehouse of each county, and you should already get them in schools by the beginning of the school year.

Place your school order for Fairyland 4 within the Ministry Platform and let the Adventure go on!

As, by the time you're reading our newsletter, the ministry platform will have already been opened for you to place your orders for grade 4, make sure you keep an eye on the ministry notifications to meet the deadlines. Place your order on Fairyland 4 (Limba engleză clasa a 4-a) and continue the journey to Fairyland!

## Special offer!

Get for free upon adoption:

- Activity book
- Activation code for the Interactive Whiteboard Software

## HIGHLY IMPORTANT!

You are kindly asked to contact us and require the activity book and the activation code for the Interactive Whiteboard Software you can use online that you get for free upon adoption. Mind that we do not know the names and postal addresses of the teachers that adopt or have adopted our books and need being informed by you.

It is our goal to support your teaching, so please enter the Teacher's Room section on our website [www.uniscan.ro](http://www.uniscan.ro) in order to download Teacher's books and audio CDs for free. You can also find useful annual planning model documents and other resources that can significantly help you enjoy your teaching. Don't miss the Fairyland microsite that brings fun downloads, cut outs, screen savers, wallpapers and certificates of achievement.

## Express Publishing Special Offer 2021/2022

AWENCOMA

## New Releases 2021

### Big Story Books Early Primary

These *Big Story Books* aim to build pupils' early literacy skills, stimulate pupils' imagination and help them learn about the world around them. Pupils get familiar with sounds and language while they enjoy the stories.

**Mary's Adventures (Starter)**

**The Bear Family (Level 1)**

**Dragon Tale (Level 2)**

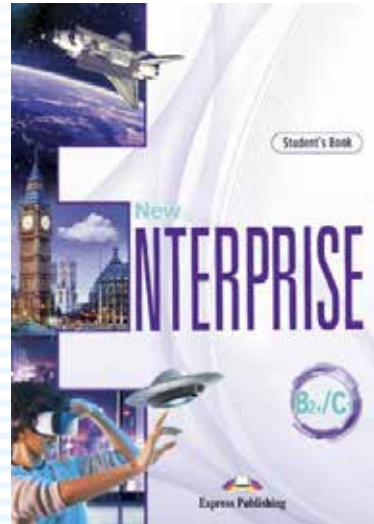

### Primary Booster

*Primary Booster* is an exciting new series designed to accompany any primary course. It helps young learners develop and consolidate their language skills in a fun and engaging way, as they boost their confidence and become independent learners.

### New Enterprise B2+/C1

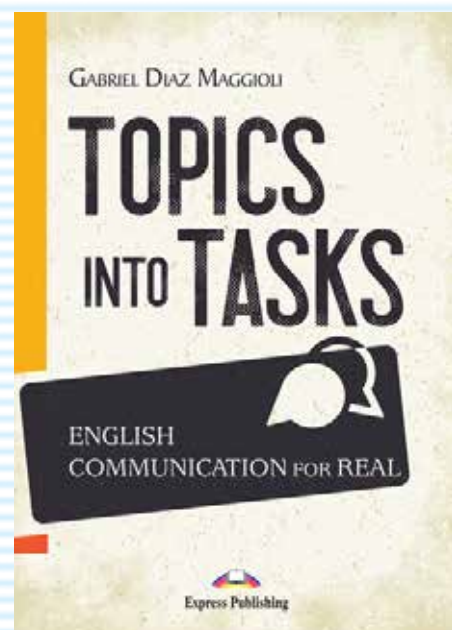

New Enterprise has got a new level, B2+/C1, completing the series (A2/B1/B1+/B2/B2+/C1). All components have just come out with digibooks.

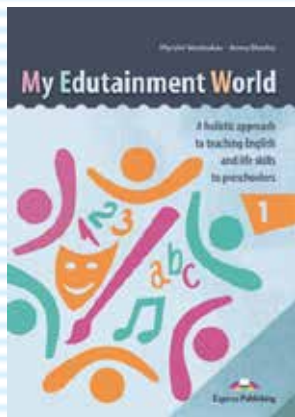

### Topics into Tasks: English

#### Communication for Real

This book will help English come alive for secondary school students around the world who have been used to a grammar-driven syllabus and feel daunted by the challenge of speaking English spontaneously.

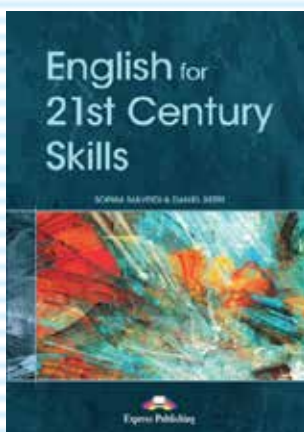

## My Edutainment World

This book aims to provide a holistic hands-on curriculum for teachers who teach English as a second language to pre-school children aged 4-6. Pupils are exposed to the English language through play and by involving them in fun and creative hands-on activities. The games and activities in this book provide preschoolers with the opportunity to be taught in an informal and enjoyable way. In other words, they will actually be learning without realizing it!

My Edutainment World does not only focus on teaching English, but also aims to teach and equip pupils with important life skills. The activities have been specifically designed to focus on developing pupils socially, physically, intellectually, creatively and emotionally.

## English for 21<sup>st</sup> Century Skills

The potential to generate innovative ideas, solve problems and implement solutions needs education systems that support

people to develop the competencies, skills and values to live and work in a globalised, inclusive and interconnected world. While digital technologies can provide people with unparalleled opportunities to interact, learn and create, taking advantage of this potential requires individuals who will have the emotional and social skills to critically engage with the world around them. As language educators, we can actively contribute to this by applying *English for 21st Century Skills*.

## TOEFL iBT Express

This TOEFL study guide offers a concise and engaging coverage of the skills, strategies, and knowledge to improve both your test score and your academic English in a much shorter amount of time than with standard TOEFL iBT® test preparation textbooks.

## OET – Occupational English Test

### **OET Speaking and Writing Skills Builder: Nursing and Medicine**

is a course that helps you prepare for the Occupational English Test (OET). It can be used either in the classroom or for self-study. The course takes a step-by-step approach, familiarising candidates with the structure and focus of the speaking and writing sub-tests while also providing opportunities to develop key grammatical structures and vocabulary specific to OET. Case studies and role-play situations, written by renowned medical experts, replicate those featured in OET.

### **OET Reading & Listening Skills Builder: All professions**

is a course that helps you prepare for the Occupational English Test (OET). It can be used either in the classroom or for self-study. The course takes a step-by-step approach that familiarises candidates with the structure and focus of the reading and listening sub-tests while also providing opportunities to develop key grammar and vocabulary skills specific to OET. The exercises and practice materials replicate those in the real exam and have been devised in collaboration with highly qualified medical advisers.

## Communicative Business English Activities

This collection of interactive photocopiable activities can be used with a wide range of students and can be adapted to a variety of classroom and one-to-one teaching situations.

## Career Paths – APPS and new levels

## More To Dig About

### The Flibets

A World of Fun, A World of Learning: The Flibets' Way

**The Flibets** is a 3-level course with 8 themed modules per level designed for pre-primary children. Zac and his friends introduce pupils to their fantasy world through English, engaging them with exciting stories and stimulating activities.

### i Wonder

Wonder is the Beginning of Wisdom

I Wonder series now has got all components and levels (with DigiBooks accompanying the workbooks) addressing private schools and language schools that need a different textbook than the one used in the public schools. To fully engage the 21st century learner, I Wonder proposes an augmented reality app, i-Wonder, which can be downloaded for free from Google Play or Apple Store.

**I Wonder Starter** focuses mainly on *listening* and *speaking* while offering plenty of pre-reading and pre-writing activities while I Wonder 1 goes for all four skills.

### DigiPrimary

Learn and Play, Play and Learn

DigiPrimary is a 5 level **digital resource** for young learners of English. Graded vocabulary and structures are practised in thematic units, while the online environment provides instant feedback and allows autonomous learning. A perfect tool for revision or catching up!

**2021-2022**

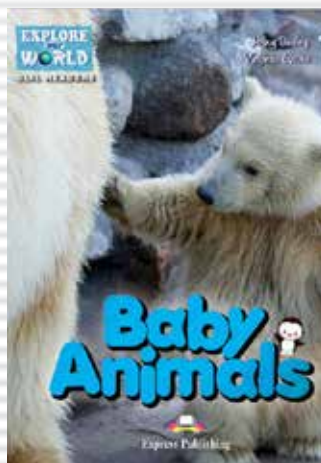

## Making the Most of Online Teaching

Three years ago, Express Publishing created a learning platform, the Express Digibooks, as an innovative and motivational way to educate learners. The aim was then to make students become more engaged in the educational process by taking advantage of their interest in information technology. The aim is now to fulfil the educational mission despite the pandemic threat, luckily through cutting edge technology that suits the digital age we live in.

The Express Digibooks Platform is to be used in combination with another platform that allows face to face interaction, such as Zoom or Google Meet. Zoom is a lot better and a lot more efficient, but you can manage with Google Meet as well. We need to keep in mind that teaching is more than doing some posts and share some presentations. We ought to allow ourselves to open to real time connection

and interaction. As teaching or learning a foreign language needs developing receptive and productive skills, which, besides reading and writing requires listening, viewing and speaking activities we cannot develop such skills without a synchronic platform to offer real time interaction. I'm sure no teacher of English would ever allow reducing teaching to chatting in front of the screen or simply to posting some homework as this will obviously not lead to learning.

Many of the Express Publishing books have digital resources. The digital resource comes in the form of a code printed on the first page of the actual book and can be unlocked in the Express Digibooks Platform. And there you have your virtual shelf of books you can use with your students by sharing your screen, allow remote control or simply by assigning class activities or homework. You can do listening activities, play videos, do interactive activities, turn the pages of the virtual book together with your students and see their progress in real time.

## How to Use the Express Publishing DigiBooks Platform

In order to use the Express Publishing DigiBooks Platform you need to create a school account. Once you have created your school account you set the school settings, add the books to your library, create classes, levels and users and you can actually start using the platform.

There are 3 types of accounts that can be opened in the platform, depending on your needs:

### 1. SCHOOL ACCOUNT

School accounts have been designed for teachers that teach in public schools and want to have a tool to manage their classes or for directors of studies that manage private schools and language schools. If you have a school account, you can create classes and assign students in their classes and also assign class levels. This way you can organise and manage your teaching activity and the student's learning process. Directors of studies in private (language) schools can also assign teachers to classes.

### Steps to Create your School Account:

1. Go to [www.expressdigibooks.com](http://www.expressdigibooks.com)
2. Click Create School
3. Fill in the form the School Master information and School Information. If you teach in a public school, you will be the school master as well as the teacher and you don't need a teacher account. If you are a private school, you must add the school master information.
4. Activate your account after your registration has been approved, through the email link you get in which you will be provided School ID, username and password.
5. Log in your school account

Once you have got your school ID you should give it to your students so as they may add themselves to your school.

If you are a private (language) school, you must as well add the teacher's emails in the "Teachers" section so as they may also be assigned to your school. They will receive a request e-mail and by confirming the request they are added to your school. Then you create classes, assign class levels, assign students to classes, and if needed assign

teachers to classes. Private schools can create sub schools if they have more than one location/school.

## 2. TEACHER ACCOUNT (MEMBER ACCOUNT - TEACHER)

Teacher accounts are needed to open if you teach in a private (language) school so as your school master may add you to their school and assign you to the classes you are to teach.

### Steps to create a Teacher Account

1. Go to [www.expressdigibooks.com](http://www.expressdigibooks.com)
2. Click Sign Up
3. Fill in your personal details in the Sign up as a member form, make sure you click teacher (account)
4. Activate your account after your registration has been approved, through the email link you get in which you will be provided username and password.
5. Log in your teacher account.

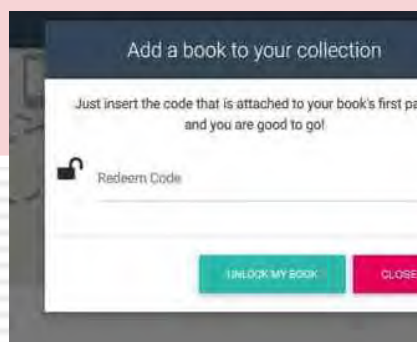

## 3. STUDENT ACCOUNT (MEMBER ACCOUNT - STUDENT)

Your students need to create a student account in order to be added to your school. Once they have created their accounts you give them the school ID and they go to the section My profile/ Add me to my school and fill in the school ID. Once they put the school ID in their profile, you will be able to see them in your school and assign them in classes.

### Steps to create a Student Account

1. Go to [www.expressdigibooks.com](http://www.expressdigibooks.com)
2. Click Sign Up
3. Fill in your personal details in the Sign up as a member form, make sure you tick student (account)

4. Activate your account after your registration has been approved, through the email link you get in which you will be provided username and password.
5. Log in your student account.

## How to Unlock the Digibook (turn the activation code into a book)

Once the account has been opened schools as well as students or teachers can add the digibooks to their collection. To unlock a digibook, go for the following steps:

1. Log in your account
2. Go to My E-books section
3. Click + to redeem the code
4. Fill in the activation code you can find on the first page of the book
5. Click unlock my book

# *Psychoeducation*

A woman's face is the central focus, framed by a large, glowing rainbow triangle. The background is dark with blurred city lights and a large, illuminated number 4 made of orange lights in the bottom left corner.

## Psychoeducation: Self-development, Non-formal Educational Programs and Teacher Training

Uniscan Grup Educational has expanded the domain of interest and engagement from education and pedagogy to psychology and psychotherapy. Our goal is to contribute to the continuous improvement of people's life in general and we strongly believe someone can reach the well-being, we are all longing for, through Education. Knowledge means raising self-awareness and understanding about the outer and inner world and it starts from our sensations and perceptions, from our everyday life experiences that lead us to representing life and build our thinking system. The way to knowledge is a two-way street that links us to ourselves and to the others. Everything we experience and learn goes through our cognition & emotional system and gets inner validation or invalidation. Our behaviour depends on our sensitivity and thinking.

One of the attributes of human beings is learning. We learn from the moment we get into being, we learn from the eyes and voice of mothers, from the gestures of fathers, we learn from books, from school, from teachers, from the attitude of the others, from the environment and society. We create life experiences, and we form our representations and expectations about life, about ourselves and about the others we communicate and relate with.

We are extremely good at learning and always in search for the "how to". Pedagogy explains part of it, but the key of understanding the "how to" we believe it comes with the knowledge of Psychology. We do have the concept of psycho-pedagogy, which is, indeed, helpful for teachers, but we need more than crossing over pedagogy and psychology. As it's not only for teachers, it's for parents also. Parents are our first teachers. Non-formal education comes long before formal education. Education is for all. It doesn't matter if you are a teacher, a doctor or an engineer, a cook or a driver. We all have kids to teach, we all have parents we learned from. Education is contagious. We give what we have been given, and we cannot give if we haven't been given. That's why we believe we need to soak Education in the knowledge of psychology so as to re-create and innovate Education. Because educating is not only about transmitting knowledge. Education should be about creating Life skills to lead our students to well-being and realisation of their full potential, to become the most they can be. Whether we are parents, teachers or psychological counsellors we cannot teach our kids those things we do not know "how to". We cannot raise their self-esteem if our self-esteem is unconsciously low, despite the success, we force ourselves into. We cannot validate our students if we do not validate ourselves, the "how to" we lack if we haven't felt validated by the significant persons in our lives.

We cannot change our experiences in the past, but we can look into them and give meaning where there was not. We make sense, we understand, we heal, we repair, and we become capable of new life experiences, representations and expectations.

We have created Educational Programs for both students and educators. When we say educators, we refer to **teachers, parents, psychologists**, actually, to all people involved in the education of children.

## Partners in Re-creating Education 4 ALL & Life Q Competences

We invite you to become our partners in re-creating the meaning and the goal of Education. **Our Educational Programs are meant to, firstly, train you and, secondly, make you trainer partner in our Educational Programs for Students.** Say yes to getting enrolled in the DA Centre team!

**DA Centre** offers your students and their families:

- Educational & Self-Development Programs for students
- Psychological Counselling for students and parents
- Psychotherapy for children, adolescents and families
- Parental support

**DA Centre** offers teachers:

- Recognised qualifications in the psychoeducational field
- Continuous professional and self-development
- Coordinating & Running Licensed Educational Programs
- Support in Running Educational Programs for students in your schools

**DA Centre** offers schools:

- Licensing Educational Programs Curriculum
- In-school Training for teachers and parents
- Support in containing violence/ abandonment/ addictions/ bullying
- Support and guidance in dealing with students' disruptive and destructive behaviour
- Personalised educational counselling (professional analyse and intervention)
- Support groups for teachers/ parents/students with special needs

We invite you to visit our website [www.supportpsi.ro](http://www.supportpsi.ro) and discover the projects you can involve in to join our efforts in building the know how to well-being. Tell your fellow teachers that teach other subjects about our goals and invite them to join our partners team.

## Order Placement Guidelines

Please place your school order by telephone, by e-mail on [bookshop@uniscan.ro](mailto:bookshop@uniscan.ro), or online, on our website, [www.uniscan.ro](http://www.uniscan.ro)

✓ Please make sure you know the name of the operator that takes your order, as for any changes you are kindly asked to speak with the same person so as mistakes may be avoided.

✓ Please note that once the invoice has been released the order cannot be changed. If you are not sure of the order or you plan to make changes, ask the operator to take your order without releasing the invoice until you call back again.

✓ Any additional order will be processed separately and it's advisable to place it with the same operator

✓ Order placing program: Monday to Friday, from 9.00 a.m. to 5:30 p.m.

## Delivery Taxes:

Uniscan Grup Educational covers the courier fees for orders of a minimum 300 lei in Bucharest and for orders of minimum 1000 lei in all big cities and towns.

Uniscan Grup Educational covers the post taxes for orders of minimum 300 lei all over the country.

For smaller orders, the postal tax value is 10 lei and the courier tax value is 15 lei in Bucharest and 30 lei in big cities and towns.

In case you do not pick up your order from the post office or the courier and you request us to resend the order, please note that the second transportation costs will be covered by you.

Please note that we do not resend orders if the orders have not been picked up twice.

**Payment:** You can pay at the post office/to the courier upon delivery.

## Suggestions & Complaints

For suggestions and solutions for problems and complaints please contact

Simona Popa:  
telephone 0723389188 or  
e-mail: [simona.popa@uniscan.ro](mailto:simona.popa@uniscan.ro)
