Hard Times

„Do the wise thing and the kind thing too, and make the best of us and not the worst...”

Dear teachers,

***E**very year I have looked into the new school year with curiosity and hunger for knowledge and I have constantly wondered where the new borders of the teaching realm will be pushed and what new horizons we will reach. I must admit I have never ever thought we will go that far, that fast, that so beyond my imagination. Though Dickens has never been my favourite writer, I've just found myself thinking of him a lot lately... And probably everyone will have great expectations from you, this autumn, as you seem to have the most capital mission ever: keep education on, despite the hard times we go through. Education is at the core of our existence, it is what moulds and structures our personalities, it is what gives us hope and maintains sanity. Thus, by providing education we provide life support, we make a*

better environment, we unlock the next level of our future. So, we always count on you ...

***S**ince, most likely, this year we will have to blend online teaching strategies together with offline teaching ones, we ought to keep in mind that current technology allows us to adjust our teaching strategies and techniques so as to achieve our aims and objectives when being in front of the screen, as well as being in front of the students in class.*

***W**e can keep up with the curriculum, develop all skills in an integrated way for all the kids, we continue using textbooks, workbooks, grammar books or other auxiliaries as they all come in digital interactive format that can be opened with a mouse click.*

***T**he most important thing, I believe, is to avoid having half of the class in the silent position of the public, watching the other half of the class performing. If this be the case, we have to be able to build a bridge between the two spaces and connect kids, do intermingling activities so as all students can actively participate, interact and become part of the class interactive learning process.*

***Y**ou can choose from a variety of materials, our advice is that you accompany the printed books by the digibooks, so as you may easily adjust the teaching and learning process to the new, unexperienced setting we are now facing. We'll deal with a lot of learning by doing and we have to be prepared with our creativity, knowledge and spontaneity turned on.*

***W**e would like to assure you we are here for you to guide you through resources and help with anything you may need and we*

take this opportunity to invite you, at the beginning of September, to attend our online workshop "Making the Most of Online Teaching" we have organised in each and every county for you to experience online teaching techniques and activities you may apply on your students so as to increase interaction in online classes. We will do pair work and group work and we will go through activities for primary, secondary and high school students that will show you how to unlock the knowledge of online teaching & learning, which is simply there, in your hands and in your brilliant minds.

Thus, keep an eye on our websites <https://www.uniscan.ro> and <https://activelearningcenter.ro>, visit them and subscribe to our newsletter so as you may be informed, get our special offers and info on training workshop and seminars. I invite you to go through our newsletter, find out about the newly approved books for grade 8, the new releases, our special offer and teaching opportunities.

I wish you a big good luck for this new school year!

All the best,

Simona Popa, Managing Director
Uniscan Grup Educational /
Active Learning Training Centre

Making the Most of Online Teaching

Three years ago, Express Publishing created a learning platform, the Express Digibooks, as an innovative and motivational way to educate learners. The aim was then to make students become more engaged in the educational process by taking advantage of their interest in information technology. The aim is now to fulfil the educational mission despite the pandemic threat, luckily through cutting edge technology that suits the digital age we live in.

The Express Digibooks Platform is to be used in combination with another platform that allows face to face interaction, such as Zoom or Google Meet. Zoom is a lot better and a lot more efficient, but you can manage with Google Meet as well. We need to keep in mind that teaching is more than doing some posts and share some presentations. We ought to allow ourselves to open to real time connection

and interaction. As teaching or learning a foreign language needs developing receptive and productive skills, which, besides reading and writing requires listening, viewing and speaking activities we cannot develop such skills without a synchronic platform to offer real time interaction. I'm sure no teacher of English would ever allow reducing teaching to chatting in front of the screen or simply to posting some homework as this will obviously not lead to learning.

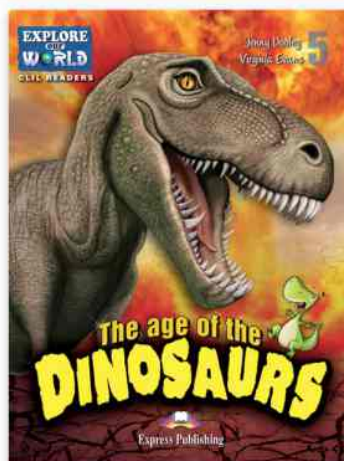

Many of the Express Publishing books have digital resources. The digital resource comes in the form of a code printed on the first page of the actual book and can be unlocked in the Express Digibooks Platform. And there you have your virtual shelf of books you can use with your students by sharing your screen, allow remote control or simply by assigning class activities or homework. You can do listening activities, play videos, do interactive activities, turn the pages of the virtual book together with your students and see their progress in real time.

2020-2021

How to Use the Express Publishing DigiBooks Platform

In order to use the Express Publishing DigiBooks Platform you need to create a school account. Once you have created your school account you set the school settings, add the books to your library, create classes, levels and users and you can actually start using the platform.

There are 3 types of accounts that can be opened in the platform, depending on your needs:

1. SCHOOL ACCOUNT

School accounts have been designed for teachers that teach in public schools and want to have a tool to manage their classes or for directors of studies that manage private schools and language schools. If you have a school account, you can create classes and assign students in their classes and also assign class levels. This way you can organise and manage your teaching activity and the student's learning process. Directors of studies in private (language) schools can also assign teachers to classes.

Steps to Create your School Account:

1. Go to www.expressdigibooks.com
2. Click Create School
3. Fill in the form the School Master information and School Information. If you teach in a public school, you will be the school master as well as the teacher and you don't need a teacher account. If you are a private school, you must add the school master information.
4. Activate your account after your registration has been approved, through the email link you get in which you will be provided School ID, username and password.
5. Log in your school account

Once you have got your school ID you should give it to your students so as they may add themselves to your school.

If you are a private (language) school, you must as well add the teacher's emails in the "Teachers" section so as they may also be assigned to your school. They will receive a request e-mail and by confirming the request they are added to your school. Then you create classes, assign class levels, assign students to classes, and if needed assign

teachers to classes. Private schools can create sub schools if they have more than one location/school.

2. TEACHER ACCOUNT (MEMBER ACCOUNT - TEACHER)

Teacher accounts are needed to open if you teach in a private (language) school so as your school master may add you to their school and assign you to the classes you are to teach.

Steps to create a Teacher Account

1. Go to www.expressdigibooks.com
2. Click Sign Up
3. Fill in your personal details in the Sign up as a member form, make sure you click teacher (account)
4. Activate your account after your registration has been approved, through the email link you get in which you will be provided username and password.
5. Log in your teacher account.

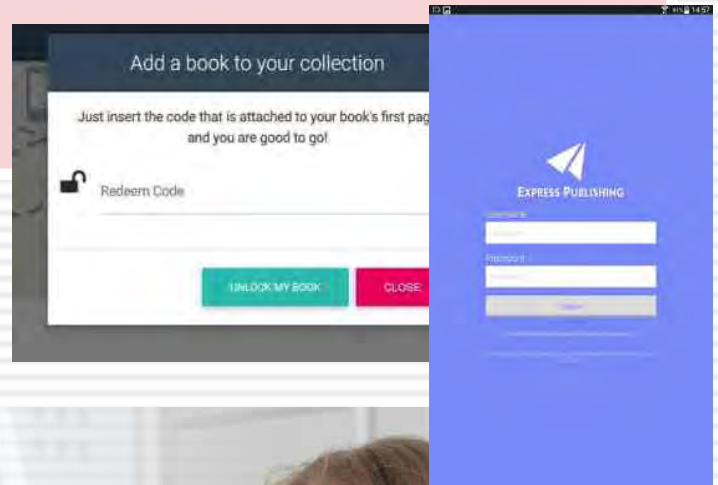

3. STUDENT ACCOUNT (MEMBER ACCOUNT - STUDENT)

Your students need to create a student account in order to be added to your school. Once they have created their accounts you give them the school ID and they go to the section My profile/ Add me to my school and fill in the school ID. Once they put the school ID in their profile, you will be able to see them in your school and assign them in classes.

Steps to create a Student Account

1. Go to www.expressdigibooks.com
2. Click Sign Up
3. Fill in your personal details in the Sign up as a member form, make sure you tick student (account)

4. Activate your account after your registration has been approved, through the email link you get in which you will be provided username and password.
5. Log in your student account.

How to Unlock the Digibook (turn the activation code into a book)

Once the account has been opened schools as well as students or teachers can add the digibooks to their collection. To unlock a digibook, go for the following steps:

1. Log in your account
2. Go to My E-books section
3. Click + to redeem the code
4. Fill in the activation code you can find on the first page of the book
5. Click unlock my book

More digital resources: ie-Books & IWBs

Besides the Express Digibooks that can be opened in the platform there are two more important tools to support the online teaching: the iebooks and the IWBs (interactive whiteboard software). So far these resources have come in the form of a CD, but since less and less computers have optical discs, starting this autumn, they will also come as activation codes you can buy and then activate and download them from <https://epiebooks.com> directly into your computer. You have to follow four easy steps:

1. Download App (Click on the DOWNLOAD icon and double click on the downloaded file to install the application)
2. Create Account (Fill in your details to create your account and activate it through email verification)
3. Activate Book (Enter the serial number (SN) and click on the download icon)
4. Sign in (Enter your credentials to access the ieBook or IWB software and click on PLAY)

They can be downloaded on 3 devices, for example on a laptop, an iPad and the telephone and do not have an expiry date.

The ieBooks offer the digital version on the Student's Book (Listening and Video activities included) and extra interactive games and stories. The series accompanied by ieBooks are:

- I Wonder
- Smiles
- Fairyland
- Incredible 5

- Right On!
- Spark
- Prime Time,
- On Screen
- Access

The IWB (Interactive Whiteboard Software) also comes in the format of a CD or as an activation code you can activate and download from <https://epiebooks.com> and it can be installed on 3 devices such as desktop/laptop/iPad. It includes all lessons, all listening and viewing activities plus interactive activities, games, songs and quizzes. The IWB can be used within an interactive board or can be projected on a whiteboard or can be showed from your computer screen by using the Zoom tool screen sharing or Google Meet.

New Ministry Approved Textbooks for Grade 8!

We are glad to let you know that we have got the highest score for quality and ministry approval for the following coursebooks:

Right On 4 - Romanian Edition - Ministry approved for Grade 8, L1 (highest score for quality)

Spark 4 - Romanian Edition - Ministry approved for Grade 8, L2 (highest score for quality)

Uniscan Grup Educational and Express Publishing are here to support you in your online teaching journey, so please don't hesitate to contact us for further help.

Free teacher's books and audio CD-s can be downloaded from our website the Teacher's room section ([https:// www.uniscan.ro/ uniscan/teacher-s-room/ materiale-gratuite](https://www.uniscan.ro/uniscan/teacher-s-room/materiale-gratuite)). If you wish to receive a Student's book for free for your use, please provide a document which attests the use of the book in your classes. You can also benefit of the Digibook code for Right on 4, the international edition.

Annual planning is also available on our website, in the Teacher's room section (<https://www.uniscan.ro/uniscan/teacher-s-room>).

Approved Auxiliary Materials

All the materials from the Express Publishing catalogue are approved as auxiliary materials, thus you can use in class any title you like and consider useful for your classes, including the international editions of the approved Romanian editions if you're looking for a higher level of difficulty.

You have also many options for your optional classes and you can find readymade syllabi and annual planning for each title on our website <https://www.uniscan.ro/uniscan/teacher-s-room>.

Please find the complete list of the approved auxiliary materials on our website, <https://www.uniscan.ro/uniscan/teacher-s-room/manuale-si-auxiliare-aprobate>.

New Releases for 2020

This year is bringing you a new coursebook for pre-primary kids, The Flibets. New levels for iWonder which completes the series from Starter Level to Level 6 revised 2020 Cambridge exam books for KET/PET - Practice Tests A2 Key/ Practice Tests B1 Preliminary and their For Schools versions and many digibooks to accompany grammar books, exam books, workbooks, CLIL and Storytime readers. By unlocking the Digibooks activation codes, you create your own virtual library you can access online from any device (phone, laptop, iPad, desktop) you want. The codes are valid for 24 months, they can be renewed every autumn upon textbooks acquisitions.

The Flibets

A World of Fun, A World of Learning: The Flibets' Way

The Flibets is a 3-level course with 8 themed modules per level designed for pre-primary children. Zac and his friends introduce pupils to their fantasy world through English, engaging them with exciting stories and stimulating activities.

I Wonder

Wonder is the Beginning of Wisdom

I Wonder series has got new levels: i-Wonder Starter, 5 & 6 (with DigiBooks accompanying the workbook) to complete the primary segment. To fully engage the 21st century learner, I Wonder proposes an augmented reality app, i-Wonder, which can be downloaded for free from Google Play or Apple Store.

New Enterprise B1+

The New Enterprise series has got an extra level, B1+, all components have just come out with digibooks. Two more levels (B2 + and C1) are on the way, hopefully coming soon.

DigiPrimary

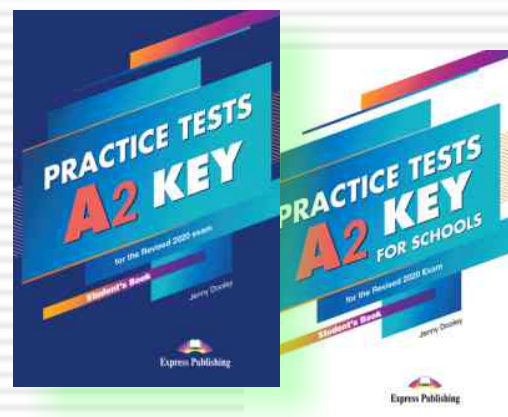

Learn and Play, Play and Learn

DigiPrimary is a new 5-level digital resource for young learners of English. Graded vocabulary and structures are practised in thematic units, while the online environment provides instant feedback and allows autonomous learning. A perfect tool for revision or catching up!

Practice Tests A2 Key (for Schools) for the Revised 2020 Exam

The books come with a collection of ten complete practice tests written in line with the specifications for the A2 Key examination for the Revised 2020 Exam.

2020-2021

Practice Tests B1 Preliminary (for Schools) for the Revised Exam 2020

The two books offer each ten complete practice tests written in line with the specifications for the B1 Preliminary examination for the Revised 2020 Exam.

This book is not a traditional grammar book, it is intended for language educators who, by using the versatile Neurolanguage Coaching PACT PQC model, will gain more confidence and be more motivated to deliver grammar, transforming language learning into stimulated, curiosity arousing conversations that may impact learners in an extremely positive way.

Brain Friendly Grammar

This resource book written by Rachel Palling, many of you have had the opportunity to attend her webinar within the Express Publishing Training Rooms, enlightens language educators as to why learning grammar has been so dry and unstimulating in the past. Next, it distils neuroscience into a simple spoken coaching conversation that harnesses the ideal conditions for absorbing and retaining information. In this way, grammar is discussed and explored with the learner in a quiet brain friendly conversation.

Online Shopping

As teachers, please access our online bookshop from www.uniscan.ro. The e-shop on uniscan.ro has been designed especially for teachers and it allows you to choose and add to basket your sale order together with the bonuses. You just need to create an account and you will be able to choose all the materials you need, according to our special offer this autumn.

Discounts have been set according to your order value; everything is ready to ease the procedure of placing your order if you want to pay online by card, avoid talking to an operator or depending on opening hours. Yet if you need advice on choosing the right materials for your class feel free to contact our representatives so as to get professional guidance.

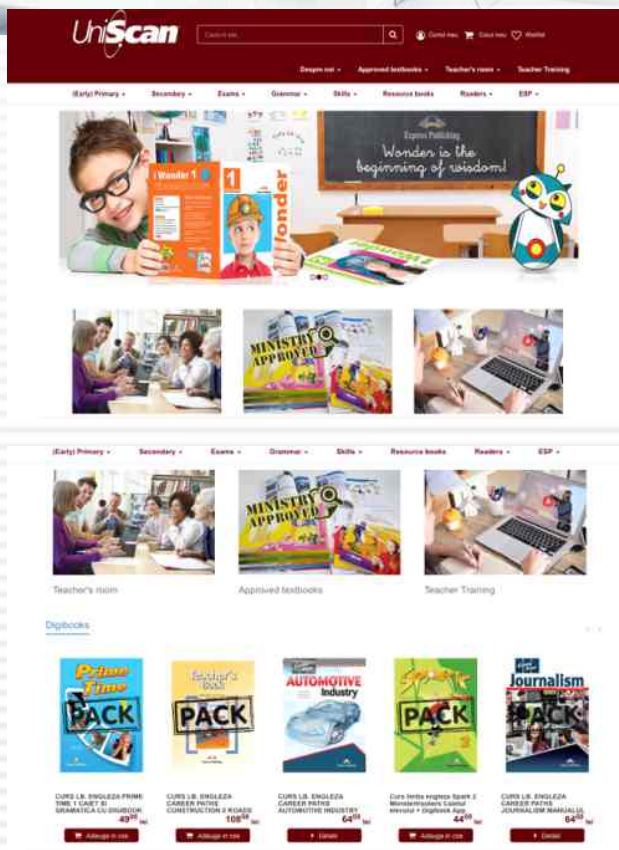

If you want your students to order individually online, please note each student can receive the materials via courier at home.

Order Placement & Delivery Guidelines

If you choose to place your school order by telephone or by e-mail on bookshop@uniscan.ro, please be informed on the following:

Order Placement

- It is recommended that you remember the name of the operator that takes your order, as for any changes you are kindly asked to speak with the same person so as mistakes may be avoided.
- Once the invoice has been released the order cannot be changed. If you are not sure of the order or you plan to make changes, ask the operator to take your order without releasing the invoice until you call back again.
- Any additional order will be processed separately and it's advisable to place it with the same operator
- The order placing program: Monday to Friday, from 9.00 a.m. to 5:30 p.m.
- Please remember you can shop

Order Delivery

- We deliver by courier in Bucharest and all big cities and towns. For small towns or villages, the courier charges extra taxes for extra kilometres and thus we can only deliver free of charge by post. You can use courier in small towns or villages if you pay the extra charges required.
- We deliver by post all over the country.
- The delivery time for orders sent by post varies between 5 - 10 working days and for the orders sent by courier between 3 - 4 working days.
- In case you do not pick up your order from the post office or the courier and you request us to resend the order, please note that the second transportation costs will be covered by you.
- Please note that we do not resend orders if the orders have not been picked up twice.

Payment: You can pay at the post office/to the courier upon delivery. It is recommended that you pay by credit card so as to avoid manipulating cash during the pandemics.

Delivery Taxes:

- Uniscan Grup Educational covers the courier fees for orders of a minimum 300 lei in Bucharest and for orders of minimum 1000 lei in all big cities and towns.
- Uniscan Grup Educational covers the post taxes for orders of minimum 300 lei all over the country.
- For smaller orders, the postal tax value is 10 lei and the courier tax value is 15 lei in Bucharest and 30 lei in big cities and towns.

Suggestions & Complaints

For suggestions and solutions for problems and complaints please contact Simona Popa: telephone 0723389188 or e-mail: simona.popa@uniscan.ro
