Teaching the Wild Swans

Dear teacher,

Welcome to a new school year awaiting to unfold and reveal nice moments of teacher-student interaction, of teacher-student inspiration and transformation that grow along the year. Getting in touch with knowledge is one of the most provocative actions in life and we are here for you to help activate learning. We bring a lot of teaching and learning resources and we bring the teaching know how through our ALTC Training Programs - thus joining your effort to educating and training the minds of tomorrow.

SIMONA POPA

General manager,
*Uniscan/Educational
psychologist & teacher
trainer ALTC*

We are present in the field of ELT (English Language Teaching) through Express Publishing, FLE (Française Langue Étrangère) through Trait d'Union and SEL (Social Emotional Learning) through Active Learning Publishing House, Evan-Moor Educational Publishers, Routledge a.s.o. We provide textbooks and many auxiliary materials needed to help acquire competences in establishing good enough relationships with ourselves and the others and communication competences that really help us bridge ourselves into the world we live in. Language is a great tool to express ourselves, a great tool to turn thoughts and emotions into words and pictures and create the flow of understanding life, of making it beautiful and qualitative, the knowledge we need to skilfully manage and correlate the inside world and the outside world together.

We invite you to flick through our newsletter to find the special offers for the Ministry approved and/or the approved auxiliaries for this school year. We are especially happy to have finally been able to complete the Fairyland series- Romanian edition with Fairyland 1, which can now be yearly acquired through the Ministry of Education. Another big reason to be happy is the fact that it's been a year now since offering FLE materials, all titles being about to get ministry validation as auxiliary materials to use in class. Many new materials for learning French are

awaiting to be discovered by French teachers and we provide free copies to flick through. As regarding SEL we got approval for the new book for grade 6 (Consiliere și dezvoltare personală pentru clasa a VI-a) and we offer books, workshops and courses for teachers interested in getting to know more in the field of SEL. As teachers we are constantly preoccupied of the learning process within ourselves as we are aware of bringing the traces of our existence and experience into a profound emotional encounter and interpersonal engagement to help our students knit the shirts they need to gain their human shapes, their humanity.

Active Learning Training Center (ALTC) hopes it has become along the years your ELT/FLE/SEL hub and we invite you discover the workshops and courses we have prepared and have in store for you. The ALTC Training Programs will explore ways to unlock new mindsets in education, especially in the field of ELT, FLE & SEL. A series of workshops, courses and educational programs will open new opportunities of inter-subjective relation and collaboration. Keep an eye on our website and register to our newsletter to keep yourself informed and reserve your participation. The first course to start at the end of September is a 10-month challenge: MIND2TEACH! We are eager to welcoming you in our ALTC venue in Bucharest, or locally, in your area. We will blend socio-emotional curriculum with the methodology of teaching languages to offer new, innovative techniques to meet the holistic and humanistic teaching principles which helps unlock the potential of our learners.

Last, but not least we invite you to take part into our 2023/2024 contest, “Teaching the Wild Swans” that will involve you and your students equally. More about this very soon, keep your curiosity up!

So... the new school year is here, hands on learning! May you have a successful school year that will move your students and will make you happy! Keep in touch to teach and touch!

Best wishes,
Simona Popa
