## Editorial

Dear Teachers,

We would like to welcome you into the new school year 2018 - 2019 and wish you inspiration and strength to be the educators our children badly need.

Children are our most valuable resources and it is our foremost duty to teach and train them in order to become fully grown-up adults. This is a joint mission we share with you, with parents, a mission we wish to carry out to our best. Uniscan Grup Educational and Active Learning Training Center continue to tread on this path of helping children to reach their best potential and thus, develop the world around them.

Last autumn, short before school was to start, the Ministry of Education discovered they had never organised an evaluation for the auxiliary materials and was preventing schools from buying non-approved auxiliary materials that give us such a good hand in doing our job. Six weeks after the school started they opened an evaluation procedure which, for some subjects, finished in January 2018. Consequently, this year, you have huge lists of approved auxiliary materials for the free market.

This year the Ministry of Education has decided to subtract the textbook from the law of public acquisitions and, instead of organising a public bid to acquire textbooks, has assigned all contracts to one single publisher house that was to become the Ministry Publishing House, the one we know as „Editura Didactică și Pedagogică”. A new law has been released, „The Law of the Textbook”, through which, the Ministry of Education has opened an evaluation procedure of manuscripts submitted by the authors themselves. The authors of the winning manuscripts were supposed to sell the royalties to Editura Didactică și Pedagogică who was responsible for editing the new textbooks. By the end of the whole process „the Law of the Textbook” was declared unconstitutional and, consequently, the whole procedure we have gone through this year has no

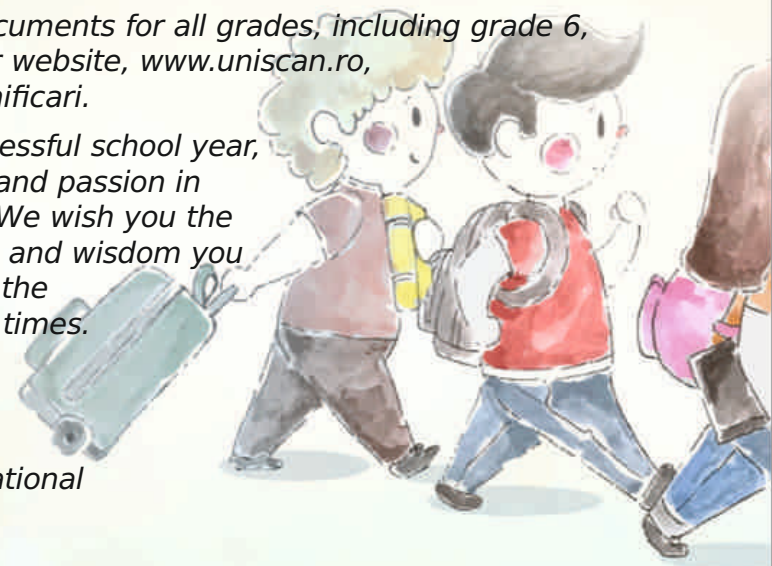

legal basis. We have done our best to continue offering you approved textbooks, so we encouraged the Express Publishing authors to submit their manuscripts for grades 1, 2 and 6 for approval. This is why Fairyland 1 and 2 were re-evaluated and admitted as textbooks for grades 1 and 2. No contract was signed with EDP, but the books will be available on the market as usually. Most of you have them in schools from the previous years and you can continue using them as they have been admitted within the evaluation process organised by the Ministry of Education. Both the international Student's Book from the Fairyland series and all the workbooks were approved as auxiliary materials, so you can use any of them in class.

For grade 6 we have got the admission within the evaluation process for Right on 2 (international edition) for grade 6 L1, Right on 1 for grade 6 L2 and New Enterprise A1 approved for grade 6 L1 Intensive classes. As all of them were also approved as auxiliary materials, we recommend you to use New Enterprise A1 for Intensive classes grade 5 and New Enterprise A2 for Intensive classes grade 6. The Romanian curriculum is easier than the International versions of the books and in order for the textbooks to be approved it is necessary to submit a lower level. Yet they are all approved as auxiliary materials so you can use the appropriate level for your kids upon your own choice.

Annual planning documents for all grades, including grade 6, are available on our website, [www.uniscan.ro](http://www.uniscan.ro), Limba engleza/ planificari.

We wish you a successful school year, sprinkled with love and passion in everything you do. We wish you the courage, inspiration and wisdom you need in order to be the teacher of our hard times.

Best wishes,  
Simona Popa  
Managing Director  
Uniscan Grup Educational
